Heaven Lake

Siberian Tiger

Harbin Ice and Snow Festival

Yalu River

Day 1 ** Jan 25

Honolulu – Incheon →

We start our vacation by boarding an international flight to Dalian via Incheon. Meals and snacks will be provided on board.

Day 2 ** Jan 26

Incheon

Arrive at Incheon International Airport. We will stay overnight in Incheon where hotel accommodations will be provided by the airlines.

Day 3 ** Jan 27

Incheon – Dalian →

(L)

Depart for Dalian, China – a beautiful seaside city on the southern tip of Liaodong Peninsula. Upon our arrival we will proceed to immigration & customs. Once we exit customs we will be greeted by an Air & Sea Travel representative. We will check in to our hotel and stay overnight.

Day 4 ** Jan 28

Dalian – Dandong

(B, L, D)

In the morning, we will take a City Tour and visit Tiger Beach, Concert Square and Dalian Port, one of the most important trade harbors in East Asia. After lunch, we will drive to Dandong, the largest border city between China and North Korea and located by Yalu River. Upon our arrival, we will check in to our hotel and stay overnight.

Day 5 ** Jan 29

Dandong

(B, L, D)

Today, we will take a Boat Ride on Yalu River, walk around Yalu River Park, and see Yalu River Broken Bridge. During the boat ride, we can see mysterious North Korea without crossing the border. . After lunch, we will visit the most easterly part of the Great Wall of China, the Hushan Great Wall, known to Koreans as Bakjak Fortress. Historically, Dandong was a settlement established to protect the Chinese heartland during the late Ming and early Qing dynasties. The identification of Hushan as the eastern terminus of the Great Wall in 2009 was met with skepticism by the Korean academia. They allege that the Chinese renamed it from Bakjak to Hushan, then rebuilt the fortress and identified it with the Great Wall. They claimed that the Northeast Project of the Chinese Academy of Social Sciences aimed to diminish local traces of Goguryeo, the ancient Korean state which Koreans consider to have first built Bakjak (Hushan). Climbing to the top step, we will have a grand view of the beautiful scenery of China and North Korea. The day ends with another great Welcome Dinner featuring North Korean Cuisine. To ensure authentic flavors, all the cooking and serving are done by North Koreans. It will be interesting to taste the different foods and enjoy the unique ambience and service.

Day 6 ** Jan 30

Dandong – Changbai Mt. (Erdaobaihe)

(B, L, D)

After breakfast, we will drive to Erdaobaihe – a small town at the foot of Changbaishan Mountain. En route, we will try a local specialty for Lunch – Chun Bing. It is a Chinese burrito made with a flour pancake wrapped around vegetables and meat. The origins of Chun Bing date back to the Jin Dynasty. Northern Chinese would eat this pancake to celebrate the beginning of spring. The literal translation of this dish is “bite the spring.” We will continue our drive to Changbaishan. We will then head to our hot spring resort for tonight. During our stay, feel free to enjoy the hot spring inside the resort. This rejuvenating experience will help reduce insomnia and aid in recovering from fatigue.

Day 7 ** Jan 31

Changbai Mt. (Erdaobaihe)

(B, L, D)

In the morning, we will go to Changbai Mountain (Changbaishan) North Scenic Area. The Chinese name Changbaishan means Ever-white Mountain. With volcanic mountain lakes, snowcapped peaks, cascading waterfalls, vast ancient forests, hot springs and abundant wildlife, the Changbai Mountain is one of China’s most stunning natural attractions. In this area we will visit the Changbai Mountain’s Heaven Lake (Tianchi), Changbai Mountain Falls, and Hot Spring. Meals in Erdaobaihe are mainly stews and salads. Let’s enjoy the “Land Delicacies Feast” created with vegetables and meats found on the mountain. This kind of feast features ingredients like wild crucian carp, hazel hen, wild boar, clams, and matsutake mushrooms that have high nutritional values.

Day 8 ** Feb 1

Changbai Mt. – Jilin City

(B, L, D)

Today, we will drive to Jilin, famous for its rimed trees in the winter. Rime Island, also called Wusong Island is only 40 kilometers from Jilin City, but at a lower elevation. This island is completely surrounded by water and is a meeting point for cold air and warmer ocean air. The 6 square kilometer island is often covered with heavy fog that does not evaporate. Today's lunch features Northeast Braised Bones. After that, we will stop by the Gothic Catholic Church designed by the French. One of its distinctive features is the belfry which has an original European bell that can be heard for several kilometers when mass are held. The large blue stones from the Ashihada area of Jilin Province used in its construction give the exterior of the church a distinctive bluish hue. The church has 16 stone columns and 24 stained glass windows, combining both religious and ethnic themes. In the evening, we have arranged a special Barbecue Dinner.

Day 9 ** Feb 2

Jilin City – Harbin

(B, L, D)

After breakfast, we will pass along the Songhua River and enjoy the beautiful and enchanting Rimed Trees. In the winter, the Songhua River continues to flow through Jilin despite the subfreezing temperature. Steam rises from the river which is located near a hydroelectric plant and freezes when it touches the branches and leaves of the pine and willow trees along the river bank. Layer upon layer of ice encrusted on the tree branches appears transparent and forms breathtaking crystal scenery that never fails to enchant visitors. After lunch, we will drive to Harbin, the city with the most bitter cold winters among major Chinese cities. Harbin is heralded as the Ice City for its well-known winter tourism, recreational activities, and its beautiful ice sculpture festival. Besides being well known for its historical Russian legacy, the city serves as an important gateway in Sino-Russian trade today and has a sizable population of Russian immigrants. The city was voted the "Top Chinese Tourist City" by the China National Tourism Administration in 2004. On June 22, 2010, Harbin was appointed a UNESCO "City of Music" as part of the Creative Cities Network. Tonight's dinner features local dishes – Northeastern Dumplings. They typically consist of ground meat and/or vegetable filling wrapped into a thinly rolled sheet of dough and sealed by pressing the edges together or by crimping. They look like the golden ingots used for money in the olden days of China, so serving them is believed to bring wealth.

Day 10 ** Feb 3

Harbin

(B, L, D)

In the morning, we will visit St. Sophia Church built with timber and completed in March, 1907. The church was part of a plan to strengthen the confidence of the army by building an imposing spiritual symbol. After lunch, we will go to Northeast Tiger Park to see the recently listed endangered Chinese tigers before touring Sun Island, the site of an international snow carving competition held every January. In the early evening, we will go to the Harbin Ice and Snow Festival to enjoy the magnificent and gigantic ice sculptures. We will be wowed by all the illuminated full size buildings made from thick crystal clear ice or a single block of snow. With complex computer-controlled LED systems, these spectacular sculptures light up the city's night sky. A Hot Pot Dinner is arranged for tonight's meal. Hot pot is sometimes known as Chinese fondue or steamboat, consisting of a simmering metal pot of stock at the center of the dining table. While the broth is simmering, ingredients such as thinly sliced meat, leafy vegetables, mushrooms, wontons, egg dumplings, and seafood are cooked in the pot and then eaten with a dipping sauce. In many areas, hot pot meals are often eaten in the winter.

Day 11 ** Feb 4

Harbin – Honolulu →

(B)

Today morning, we will drive to the airport for our return flight home, ending our fantastic tour of the Harbin Ice and Snow Festival.
